

REMARKS

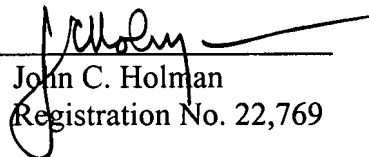

The Notice of Non-Compliant Amendment ("Notice") mailed June 5, 2007 has been received and carefully consider. It is respectfully submitted that the Notice is incorrect because the amendments to the specifications were based on previous submitted amendments and complied with all the requirements of patent rules and MPEP. More specially, the sequence "HRGYPGLDG" was present in the original specification. In an amendment filed on June 27, 2006, such sequence was deleted and "SEQ ID NO: 1" was added in various paragraphs of the specification. However, Applicant believes that it is clearer to have both the sequence "HRGYPGLDG" and "SEQ ID NO: 1" in the specification. Therefore, in the amendment filed on May 4, 2007, the previously deleted sequence "HRGYPGLDG" was added. Because all amendments should be made based on immediate previous version of the specification, the sequence "HRGYPGLDG" was underlined to show that it was added. In addition, no marking is shown with respect to "SEQ ID NO: 1", since it was already in the specification by the amendment of June 27, 2006. A search of the Private PAIR indicates that the amendment of June 27, 2007 was in possession of the U.S PTO. Therefore, withdrawal of the Notice of Non-Complaint Amendment is respectfully requested.

An action on the merits of all of the claims and a Notice of Allowance thereof are also respectfully requested.

Respectfully submitted,

JACOBSON HOLMAN PLLC
